## PROFILE

Enthusiastic and detail-oriented Front-End Developer with a passion for creating responsive and user-friendly web applications. Proficient in HTML, CSS, JavaScript, and modern frameworks like React, Bootstrap and Tailwind. Adept at collaborating with teams to deliver high-quality projects on time. Currently pursuing a degree in Information and Communication Technology, with hands-on experience in developing e-commerce and booking websites. Eager to leverage my technical skills and creativity to contribute to innovative front-end development projects.

## EDUCATION

- **Software Development**

Front-end Web Development - online courses

Aug 2021

- **New Cairo Technological University**

Faculty of Industry and Energy Technology

Information and Communication Technology

May 2021 - Sep 2026

## SKILLS

- **Languages:** HTML/HTML5, CSS/CSS3, JavaScript
- **Frameworks:** React, Bootstrap, Tailwind, jQuery
- **Tools:** JSON, Jest, Git, github
- **Other:** Problem-solving

## EXPERIENCE & PROJECTS:

- **E- COMMERCE**

- [Online Shop with React](#)

- I created a responsive e-commerce website for app back cover products using the React.js framework and Bootstrap CSS framework. I used a JSON server to get products and authentication APIs

- **BOOKING SITE**

- [Dentist booking site](#)

- Developed a responsive dental booking website using React.js, Tailwind CSS, and HTML for seamless appointment scheduling and user-friendly navigation. Integrated a user-friendly admin dashboard for data analysis and booking management
