PROFILE

Enthusiastic and detail-oriented Front-End Developer with a passion for creating responsive and user-friendly web applications. Proficient in HTML, CSS, JavaScript, and modern frameworks like React, Next ,Bootstrap and Tailwind. Adept at collaborating with teams to deliver high-quality projects on time. Currently pursuing a degree in Information and Communication Technology, with hands-on experience in developing e-commerce and booking websites. Eager to leverage my technical skills and creativity to contribute to innovative front-end development projects.
